

Declaration of compliance

FCM (food contact materials) Sealing parts in RUBBER

We hereby certify that all sealing parts of the rubber materials type NBR, HNBR, EPDM, IIR, VMQ (SIL), FPM and KZ (FFKM) that have the designation letters "FDA" included in the part description on labels, delivery notes and invoices, supplied by M Seals, are in compliance with:

EU1935/2004, Materials and articles intended to come into contact with food

Until specific measures for rubber materials is introduced in the EU legislation, article 3 in EU1935/2004 is considered fulfilled if the material conform to the FDA CFR21 / §177.2600

EU2023/2006, Good manufacturing practice

FDA CFR21 / §177.2600 (Rubber parts intended for repeated use)

It remains the customer's own responsibility to determine the suitability of the sealing components for the projected application or application conditions (contact time, contact temperature for the respective types of food stuff).

Our guideline "FCM (food contact materials), Suitability and restrictions of use" which are available on WWW.M-Seals.dk, can be of assistance.

In accordance with FDA CFR21 §177.2600(g), "Good manufacturing practice", rubber articles intended for contact with food must be thoroughly cleaned prior to food contact.

M Seals is registered by the Danish Veterinary and Food Administration (FVST/DVFA) acc. to BEK of 149-25/02/2009 as importer of FCM materials.

Best Regards
